

Carla Dizon

Machine Learning Engineer

Professional Summary

Enthusiastic ML engineer experienced in building and deploying data-driven models using Python and cloud-bas

Education

Master of Science in Computer Science, University of the Philippines Diliman

Skills

Python, TensorFlow, Scikit-learn, Pandas, AWS, Data Preprocessing, Model Deployment

Experience

- Preprocessed datasets for natural language processing projects.
- Built classification and clustering models to optimize business insights.
- Collaborated with developers to deploy ML models using Flask APIs.

Projects

- Text Classification API – Developed a REST API for sentiment analysis using TensorFlow.
- Recommendation System – Implemented a product recommender using collaborative filtering.
